

To all families considering Perfect Fit's services:

Thom has been both a supporter and an encourager to our daughter Kelsey, since he first met her in 2006.

In regards to the services he provides, he has indeed been reliable. His contacts in the college coaching ranks and his ability to communicate with them, has been beyond the scope of anything we could have done on our own. He has created awareness of her nationwide as a player, resulting in dozens of follow-up contacts from coaches, mostly from Division I schools in her case, and most of them in major athletic conferences. Many of those programs have subsequently scouted her at showcase events. This activity has also increased the level of attention she is receiving from programs that were already aware of her, as coaches from the Carolina's and our ODP Region became cognizant of the many other schools that are also pursuing an interest in our daughter.

I would definitely recommend Thom, and believe he provides a tremendous amount of value for what he charges.
